OWNING A WILLIAMS BY BACHMANN LOCOMOTIVE NOW SOUNDS BETTER THAN EVER!

Williams by Bachmann continues to roll out new models with True Blast Plus®, which provides 16-bit digital polyphonic sound including a prime mover, horn, and bell. Our unique system allows you to hear prototypical digital sound with throttle notching while simultaneously sounding the horn and bell. From the new RS-3 (pictured on the cover) to reintroduced classics such as the GP38 and FA-1, you can see why owning Williams by Bachmann locomotives with True Blast Plus® sounds better than ever.

We're also delighted to introduce Bachmann's exclusive snap-together *E-Z Track®* System in 3-rail O Gauge with nickel silver track and gray roadbed. *E-Z Track®* makes set-up quick, easy and fun! Our *E-Z Street®* collection continues to expand with *E-Z Street®* cars (including two sedans, a taxi, and a police car), and the first *E-Z Street®* ready-to-run set, *E-Z Street®* Expressway.

With exciting choices in True Blast Plus® locomotives, the rollout of O Gauge *E-Z Track®*, new *E-Z Street®* items and more, we will continue to offer the best and most innovative O Gauge products on the market in 2014!

Lakeshore Limited

Ready-to-Run Electric Train Set

Item No. 00324 • Suggested price: \$409.95

Smoothly running along two Great Lakes and the Hudson River, New York Central's famed Lake Shore Limited followed the "Water Level Route" from New York City to Chicago. This set features a steam locomotive with die-cast boiler and chassis, snap-fit track with roadbed, and a powerful 80-watt AC transformer in a complete ready-to-run package.

The Greyhound

Ready-to-Run Electric Train Set

Item No. 00325 • Suggested price: \$439.95

Union Pacific used this elegant two-tone gray livery to match its locomotives to new Pullman cars and emphasize its streamlined passenger service. This set is ready to show off its distinctive color scheme and features a steam locomotive with die-cast boiler and chassis, two lighted passenger cars, snap-fit track with roadbed, and a powerful 80-watt AC transformer in a complete ready-to-run package.

Santa Fe Flyer

Ready-to-Run Electric Train Set

Item No. 00321 • Suggested price: \$309.95

Keystone Express

Ready-to-Run Electric Train Set

Item No. 00322 • Suggested price: \$309.95

The Santa Fe railroad was widely known for its passenger train service in the first half of the 20th century. Wearing its distinctive “war bonnet” paint scheme, the *Santa Fe Flyer* is ready for a run from Los Angeles to Chicago and back again. This set features a dual-motor diesel locomotive, snap-fit track with roadbed, and a powerful 80 watt AC transformer in a complete ready-to-run package.

The Pennsylvania Railroad was known as the “Standard Railroad of the World” and ran passenger service along the East Coast of the United States and as far west as Chicago. This set proudly wears a Pennsy Tuscan red paint scheme and features a dual-motor diesel locomotive, snap-fit track with roadbed, and a powerful 80 watt AC transformer in a complete ready-to-run package.

4-6-4 HUDSON SEMI SCALE STEAMER

NAVIGATES O-27 CURVES • LENGTH 19.5" • HEIGHT 3.75"

- 6 drive wheels with 2 traction tires
- powered by a single motor
- steel-rimmed wheels
- electronic 6-amp reverse board
- True Blast II® digital whistle and bell
- die-cast operating coupler
- smoke unit
- die-cast trucks
- wire-form handrails and grabrails
- smoke fluid included
- die-cast loco and tender

When you think of the Hudson locomotive, New York Central immediately comes to mind. It was the workhorse for NYC from the late 1920s until the 1950s. Our ruggedly built O-27 Hudson is the perfect addition to your stable.

- True Blast Plus® 16-bit polyphonic sound including prime mover, horn, and bell
- durable ABS plastic shell
- die-cast trucks, truck sides, and pilots
- die-cast operating couplers
- dual lights
- sturdy stamped metal handrails

Join us in commemorating Norfolk Southern's 30th anniversary milestone with these SD90 locomotives in heritage paint schemes. Created on July 1, 1982, out of the merger of Southern Railway Company and Norfolk and Western Railway Company, Norfolk Southern has grown to become one of America's premier railroads. These Heritage engines help acknowledge that success while celebrating Norfolk Southern's storied past.

GENERAL MOTORS GP30 SCALE DIESEL

NAVIGATES 0-27 CURVES
LENGTH 14" • HEIGHT 4"

TRADITIONAL
LINE

- directional LED lighting
- separately applied grabirons, drop-down steps, and windshield wipers
- wire-formed handrails
- 6-amp reverse board with directional lock-out
- prototypically correct details for dynamic and non-dynamic brake models
- dual motors with flywheel coasting action
- traction tires
- durable ABS plastic shell
- True Blast Plus® 16-bit polyphonic sound including prime mover, horn, and bell

Built between 1961 and 1963, the GP30 design reflected the latest engineering of the early 1960s. It owes its distinctive "hump," which spans the entire top of the locomotive, to General Motors' automotive stylists. Among its design innovations, the GP30 could be equipped with dynamic braking and an airtight hood to protect the air intake of its electrical cooling system. We continue the GP30's innovative tradition by making this the first model to include True Blast Plus™, which provides 16-bit polyphonic sound.

- True Blast II® digital horn and bell
- durable ABS plastic shell
- die-cast trucks, truck sides, and pilots
- die-cast operating couplers
- dual headlights
- sturdy stamped metal handrails

The GP, or General Purpose, class was introduced in 1949. General Motors built more than 4000 GP models for more than 45 railroads over the next 12 years. This locomotive is so versatile that many railroads rebuilt them and continue to use them today, over 40 years later. Ours is true to scale size and will operate on curves as tight as O-27.

RS-3 SCALE DIESEL

NAVIGATES O-31 CURVES • LENGTH 14.5" • HEIGHT 4.25"

TRADITIONAL
LINE

- durable ABS plastic shell
- 6-amp reverse board
- direction lock-out switch
- dual motors with flywheel coasting action
- directional LED lighting
- separately applied grabirons, drop-down steps, and windshield wipers
- wire-formed handrails
- traction tires
- True Blast Plus® 16-bit polyphonic sound including prime mover, horn, and bell

Introduced in 1950, the all-purpose, 1600-horsepower RS-3 diesel locomotive had the stamina and strength for freight and passenger service yet was agile enough for yard work. With its rugged, dependable design, it's no wonder that many of these versatile RS-3 locomotives are still working today on short lines, tourist lines, and freight lines. Our model comes ready to go to work with *True Blast Plus*® 16-bit polyphonic sound including prime mover, horn, and bell.

- front headlights
- etched metal grills covering side vents and roof fan
- die-cast operating front couplers

Struggling to compete with GM's dominance, Alco introduced its first diesel locomotive, the FA-1 in 1945. Alco realized that there was a tremendous demand to satisfy from the railroads phasing out steam power. The unit was designed as a dual purpose locomotive suitable for freight and passenger service. Alco produced almost 700 units from 1945 - 1950 for railroads all over the country.

PETER WITT STREETCAR

- all-wheel drive
- precision can motor with two flywheels
- hidden drive train and electronics
- painted interior with seats
- photo-etched brass safety screen
- digital trolley bell
- electronic reversing unit

While serving as Cleveland's Street Railway Commissioner, Peter Witt designed an all-steel, single-operator streetcar that distinguished itself from others of the era by its use of the center door as an exit only. Passengers could pay the waiting motorman as they boarded at the front and exited at the center of the car, an arrangement which reduced stop times, improved schedules, and increased efficiency. Though designed originally for Cleveland, the Peter Witt Streetcar went on to service in cities throughout the world from the 1930s until the early 1960s.

Item No. 00341 • price to be announced

Drive the fast lane to fun on the *E-Z Street® Expressway*. Featuring a vintage-style *E-Z Street®* sedan, classic *Plasticville® U.S.A.* Turnpike Interchange building, and 36.5" x 21.5" oval of *E-Z Street®* track, this ready-to-run set puts you in the driver's seat for your next O Gauge road trip.

This complete and ready-to-run E-Z Street® set includes:

- *E-Z Street®* sedan (forward operation only)
- *Plasticville® U.S.A.* Turnpike Interchange building (with 4 traffic cones)
- 36.5" x 21.5" oval of *E-Z Street®* track (18 pieces) including 8 pieces 21" diameter curved track, 8 pieces 2.5" straight track, and 2 pieces 10" straight track
- wall pack with speed controller
- illustrated instructions

Speed Controller with
Plug-In Wiring
(forward operation only)

Now your model town or city can get moving with the *E-Z Street®* track system and *E-Z Street®* vehicles. The *E-Z Street®* modular system snaps together to create realistic one-lane or two-lane roads and intersections. Some suggested configurations include using four sections of 90 Degree Crossover Track (Item No. 00268) to form a two-lane four-way intersection. The 16" diameter curves (Item No. 00261) nest inside the 21" diameter curves (Item No. 00262) for realistic two-lane roads. When planning your track layout, note that you need to use 2.5" Straight to Curve Track (Item No. 00264) anytime you want to connect straight track (5" Straight, Item No. 00266 or 10" Straight, Item No. 00267) to a curved section.

To add power to your *E-Z Street®* system, you must connect Power Wires (Item No. 00270) to the underside of a section of 10" Straight Track (Item No. 00267). If you would like to create an urban siding off of your track mainline, use our "To Track" Connector Pins (Item No. 00272) to connect to our O Gauge or O-27 tubular track system.

From open rural highways to busy city downtowns, *E-Z Street®* offers limitless possibilities for fun!

E-Z STREET® CAR

Suggested price: \$76.95 each

Get behind the wheel of these brand new cars designed for the *E-Z Street™* track system.

Features include:

- forward operation only on O Gauge *E-Z Street®* track system and straight or curved three-rail track

WilliamsTM

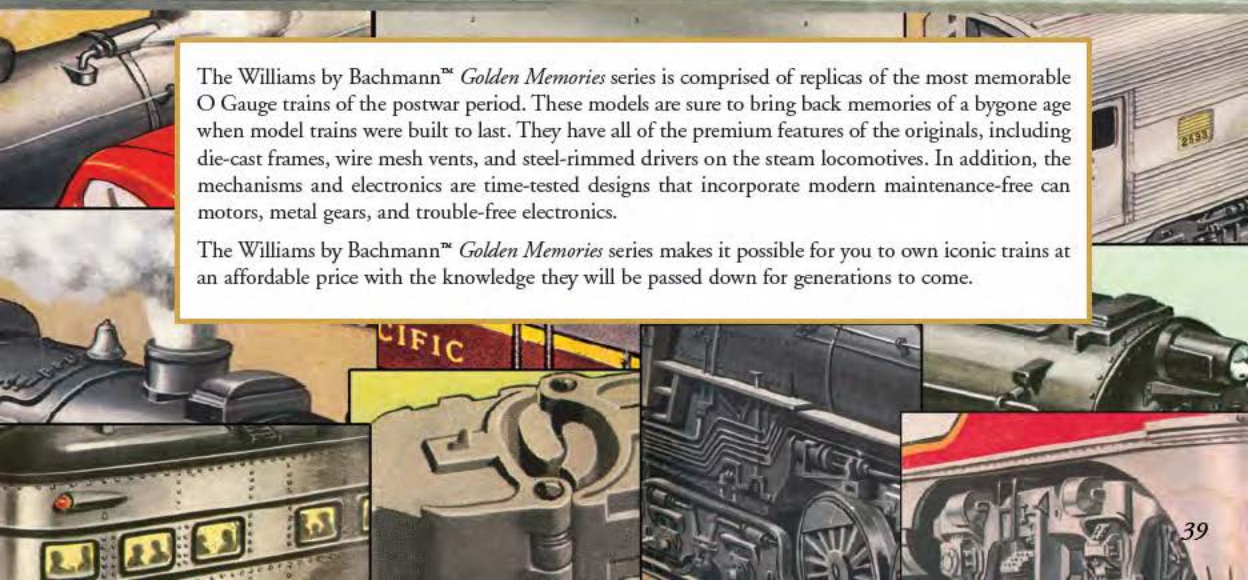

by BACHMANN[®]

Golden Memories Series

The Williams by Bachmann[™] *Golden Memories* series is comprised of replicas of the most memorable O Gauge trains of the postwar period. These models are sure to bring back memories of a bygone age when model trains were built to last. They have all of the premium features of the originals, including die-cast frames, wire mesh vents, and steel-rimmed drivers on the steam locomotives. In addition, the mechanisms and electronics are time-tested designs that incorporate modern maintenance-free can motors, metal gears, and trouble-free electronics.

The Williams by Bachmann[™] *Golden Memories* series makes it possible for you to own iconic trains at an affordable price with the knowledge they will be passed down for generations to come.

2-6-4 STEAM GIRL'S FREIGHT TRAIN

Item No. 00307 • Suggested price: \$699.95

O GAUGE E-Z TRACK®

Bachmann's exclusive *E-Z Track®* has long been one of the world's most popular track systems in HO and N scale because it makes set-up quick, easy and fun! Just snap it together and it stays together on floors, tables, and carpets. It is available for the first time in O Gauge with tin-plated steel track and gray roadbed. You can use the Transition Track (Item No. 00283) to connect to our or other manufacturers' O Gauge track to expand your current layout.
